

# Acton Nature Center

NATIONAL  
**MOTH**  
WEEK

## Mothing at the Acton Nature Center July 30, 2022 8 PM to 11 PM

Come enjoy the wild nightlife at the ANC on Saturday, July 30, to celebrate National Moth Week! The **free public event** begins at 8 PM, when Texas Master Naturalist volunteers from our Rio Brazos Chapter will offer children's activities at the Pavilion. A mothing presentation by Sam Kieschnick, TPWD's Urban Biologist for the DFW region, will follow at the Pavilion at 8:30 PM.

"Moth-ers" from the DFW area will be visiting with their light rigs to attract, identify and document nocturnal insects at the Acton Nature Center. Insect repellent, closed-toed shoes, water and a flashlight are recommended for visitors. **NO PETS PLEASE.**

Moths are most active on warm, humid and calm nights. The public event will be cancelled in the event of a heat advisory, brisk winds, rain or thunderstorms.

**Visit the [actonnaturecenter.org](http://actonnaturecenter.org) website for a weather update on July 30.**

Acton Nature Center, 6900 Smokey Hill Court, Granbury, TX 76049
